

ProtectMyCircle

Scam Protection Built for American Families · protectmycircle.com

The only scam protection product that educates your family — not just blocks threats.

Why ProtectMyCircle?

1. Real expertise behind it

Built by Garland A. Hurt — 40 years in banking and information security. Not a startup. Not a software company. A real expert who spent four decades protecting financial institutions from the same tactics criminals now use against your family.

2. The only product that educates

10 interactive training modules with quizzes and certificates of completion. A tool that blocks scams protects you until it fails. A tool that teaches you protects you forever.

3. Built for non-technical users

Plain-English verdicts. No jargon. No software to install. Works on any phone, tablet, or computer. If you can paste a message, you can use ProtectMyCircle.

4. \$7/month covers your whole family

Up to 5 people. That's \$1.40 per person per month — less than a cup of coffee. Compare to Norton and McAfee at \$100-\$150/year per person.

What We Offer

Instant Scam Checker

Paste any suspicious text, email, call script, or screenshot. Get an instant plain-English verdict and exactly what to do next.

Training Center

10 lessons covering phishing, grandparent scams, Medicare fraud, gift card fraud, romance scams, job scams, and more. Individual certificates after each module.

Weekly Scam Alerts

Monthly rotating alerts showing the scams actively hitting families right now — automatically current, zero maintenance.

Business Plans

Small Team \$29/mo (10 employees) · Business \$79/mo (50 employees) · Enterprise custom. Protect your entire workforce.
